## AG-364 AUTOMATIC GUN

The all new AG-364 Automatic Airless Spray Gun provides improved transfer efficiency. Available in dead-head or recirculation manifolds, this high-quality airless gun helps eliminate excessive paint waste and lengthy cleaning time. The applicator accomplishes ultimate transfer efficiency resulting in reduced overspray, cleaner machines and reduces applied coating cost per piece. A softer, high-integrity fan pattern allows for the consistent application of materials.

- Softer, high-integrity fan pattern
- Increased transfer efficiency reduces overspray, time and materials
- Tip versatility for use on a variety of wood finishes

## RANSFLOW ELECTRONIC MIXING SOLUTION

The RansFlow is a dynamic fluid metering system which offers closed loop metering and flow control of multi-component materials (2 or 3k). The systems programmable flush and fill make color change faster with a 99 paint recipe capability.

- True programmable 3k operation
- Repeatable and consistent
- User-friendly touch screen
